Art Unit: 1742

1. The following is an examiner's statement of reasons for allowance:

a) The declaration by Dr. Johnson filed August 23, 2006 (with corrected copy subsequently filed) provides evidence that the second phase present in the materials disclosed in the Liu et al. reference cannot meet even a basic definition of the term "ductile", regardless of what particular or numerical limitations would be attributed to this term by one of skill in the art. Thus, the materials defined in claim 1 are patentable over Liu et al.

b) With regard to the provisional obviousness-type double patenting rejection, the claims of the conflicting application, which was filed subsequent to the present application, are not in condition for allowance. This rejection is therefore withdrawn and claims 1-13 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
